Protecting Temperature-Sensitive Products

# 153UB Insulated Standard Bags

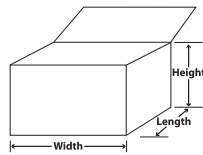

The RW Protect Insulated Standard Bags are the workhorses of our product line. They are ideal for transporting ice cream, tomatoes, prepared meals, and many other temperature-sensitive products. The construction of the Insulated Standard Bag has five key layers of insulation, including our proprietary high-density flexible foam.

## Specs:

- Maintain product temperatures with five layers of protection
- Multiple layers of insulation with high-loft fiberfill insulation and high-density foam
- Mildew- and stain-resistant inside and out
- Water-repellent, windtight nylon outershell
- Dry ice pocket
- Dual zipper pulls for convenience
- Carrying handles on sides
- Shoulder strap on 1-gallon bag
- Machine washable

## [new design]

# Custom Options

RW Protect can customize any product to fit your needs. **Contact Wes Dye at 706.864.5757 ext. 228 or [wdye@refrigiwear.com](mailto:w dye@refrigiwear.com)** to help you determine the size, insulation, and features you need to obtain optimum results at an affordable price!

## Increase Your Company's Visibility with Custom Features

### Options include:

- Embroidery • Carrying straps • Handles • Internal pockets for dry ice or gel packs
- Document holders • Two-wheel cart integration • Extra insulation • Special colors • Special sizes
- Custom designs • Added reflective tape • ID windows • Company logo(s) • UPC bar codes
- Contact information • Instructions for the driver • ID numbers to track your RW Protect covers

# Embroidery

Embroidery is the process by which letters, numbers, or images are machine-stitched directly on your RW Protect product. All embroidery is completed by experienced sewing operators in our Dahlonega, Georgia factory.

**Premium appearance.** Many companies prefer the professional look of embroidery.

**Pantone® color matching.** With thousands of Pantone colors to choose from, we can ensure your embroidery will match your logo exactly, so your image stays consistent.

**Durable and long-lasting.** Embroidery remains intact and threads are colorfast for a significant length of time with typical wash and wear.

# Digital Heat Seal Imaging

With Digital Heat Seal Imaging, letters, numbers, or images are printed on a special material and affixed to your RW Protect product through a heat transfer process. All Digital Heat Seal Imaging is completed by experienced operators in our Dahlonega, Georgia factory.

**Amazing image detail.** Detailed, intricate images can be created with a complexity that is not possible with embroidery.

**Clean, streamlined appearance.** Heat seal images essentially become part of your RW Protect facing, so they will not collect dust or debris.

**Reflective material available.** Letters, numbers, and one-color logos can be created in reflective material, enhancing visibility for both your worker and your image.
